Most departments have completed Service Level Agreements (SLA) by complaint type that will measure responsiveness to customer requests for service.

When the Oracle Service Cloud reconfiguration and departmental system integration is completed, County responsiveness to requests for service will be included in the monthly Customer Service Report. The target go live date for the reconfiguration and integration of the Countywide Customer Relationship Management project is February 2020.

Until completion of departmental system integration, Aging Service Requests are explained as follows:

Process – Departmental processes for case completion vary. Many case types require between 30 days and up to 1 year to process.

Systems – Departments that do not have their database systems fully integrated with the County CRM may have completed a requested item, but lack of system integration does not close the item in the County CRM. This issue will resolve with CRM integration.

Workload – Manual work required by administrative staff to open and close service request in the County CRM can be delayed due to competing departmental requirements. This issue should also be resolved with County CRM integration.

Many departments utilize work project assistance to complete service requests and this resource is not always available.

Seasonal/Cycle – Construction season is late spring early summer, many projects are completed in season or on cycle.

Dispatch Services

Dispatch Service Definition

The Sacramento County 311 Communications Center provides dispatch services 24 hours a day 7 days a week for departments that do not have a public facing telephone line. After regular business hours, 311 generates service requests on behalf of most departments and provides an immediate notification to departmental on-call staff by radio, telephone or text message. Departmental staff acknowledge receipt of the request and respond by providing the specific requested service, even after-hours and on holidays. Departments determine what requires an immediate dispatch and which staff members to contact outside of their regular business hours.
